About me: environmental scientist convinced that we won't magically save the world tomorrow. The path to more sustainable societies should be studied by pluridisciplinary working groups that acknowledge the complex metabolism of cities and ecosystems. My aim is to contribute to this process.

Education and research experience

12/2020 Present	Postdoctoral Researcher – Sostenipra Research Group – ICTA-UAB
10/2017 12/2020	PhD in Environmental Science and Technology – Sostenipra Research Group – ICTA-UAB

Thesis: *A Circular Economy Approach to Urban Agriculture: an Environmental Assessment.* **Mark:** Cum Laude

2/2020 6/2020	Visiting Scholar – Chair of Societal Transition and Circular Economy – Albert-Ludwigs-Universität Freiburg
3/2017 9/2017	Research Assistant – Chemical, Biological and Environmental Engineering Department – UAB
9/2016 7/2017	Master's Degree – Interdisciplinary Studies + Urban and Industrial Ecology – UAB (GPA 8.4)
9/2012 7/2016	Bachelor's Degree – Environmental Sciences – UAB (GPA 8.0)

Relevant publications

Combining LCA and circularity assessments in complex production systems: the case of urban agriculture – Resources, Conservation and Recycling

Identifying eco-efficient year-round crop combinations for rooftop greenhouse agriculture – Intl. Journal of LCA

Software and other skills

Teaching activities (3 years) in **Life Cycle Assessment** in the Master program in Interdisciplinary Studies – UAB

Supervision of 11 MSc Thesis on LCA / Industrial Ecology

Extensive knowledge on current and developing **LCA databases and methods**: Ecolnvent, LCADB, Recipe, etc.
